

161 03 99 04 37 - Driver for 48V Stucchi track adapter with integrated BT module

Do you want to dim lighting on a Stucchi track? Then this module is suitable for you. Mount this module between your 48VDC power supply and the track, add the module to your casambi network and dim all the lights on your track.

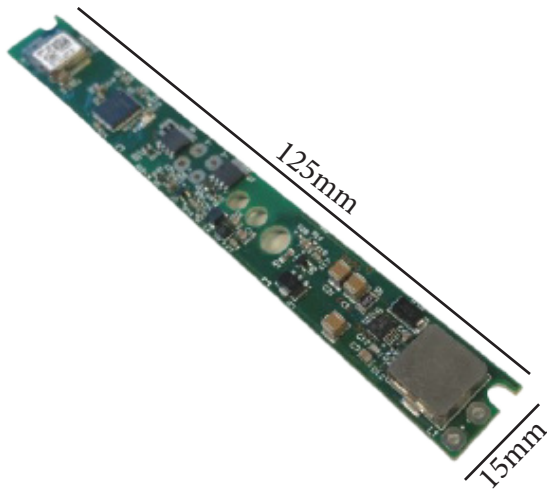

1. Specifications

Input	
Voltage input	48 Vdc
Standby power	< 0,25W
Output current	
connection on 'B'	300mA
connection on 'M'	350mA
connection on 'M' & 'B'	600mA
connection on 'T' & 'B'	650mA
connection on 'T'	700mA
Output voltage range	
PWM frequency	2V - 42V DC
Operating conditions	
Ambient temperature, ta	-20...+45°C
Storage temperature	-25...+75°C
Max. relative humidity	0...80%, non-cond
Mechanical data	
Dimensions	125 x 15 mm
Weight	0,1Kg
Degree of protection	IP20 (indoor use only)
Partnumbers	
Driver for 48V Stucchi track adapter with integrated BT module	161 03 99 04 37
